The Legal Matrix: Clinical Tool vs. Statutory Ban

LEGAL USE

Detecting genetic disorders
(Down syndrome, Haemophilia,
Sickle-cell anaemia)

Assessing foetal survival

BANNED USE

**Sex determination
of the foetus.**

The Statutory Shield: Preventing Female Foeticide

Real-World Law: Enforced by the PCPNDT Act, 1994

Key Takeaway: The ultimate goal of the statutory ban is to legally check the menace of female foeticide.

Landmark Research Support: 'Saheli'

Product:

Saheli

Type:

Non-steroidal oral
contraceptive pill.

The NEET Trap

**Amniocentesis is NOT banned.

**What is statutorily banned is the MISUSE of amniocentesis
for sex determination.**

**Quick Tip: Read the MCQ stem carefully! If a statement says
'Amniocentesis is completely banned in India' , mark it as FALSE.**
